Licensed Manufacturer

 **Bradnam's**
windows & doors

A part of Bradnam's **Essentials** range
of windows and doors

Awning windows are ideal for use with fixed windows and provide a stylish option to suit the traditional or contemporary home.

Awning windows are hinged from the top opening outward, letting air circulate freely. Tending to operate in reverse, the awning lets out more air than it lets in, which makes it perfect for kitchen and bathroom applications.

features and benefits

- Awning windows can be proportioned to almost any dimension, allowing them to stand alone, stack vertically or be combined horizontally
- Modern slimline design
- Optional lockable gear winder prevents window closing in high winds and offers added security
- Traditional solid sash giving heritage appearance
- Full joint sealing maximises weather proofing performance
- Limited opening capability for multi storey applications
- High rating for energy performance due to superior sealing action
- Powder coated aluminium frames for strength and durability
- Tested to Australian Standards
- 7 Year Warranty

applications

- Residential construction
- Renovation
- Low-rise buildings
- High-rise
- Window walls

note

Products may be subject to local variation or climate requirements

options

- Colonial, Federation or custom bars
- Variety of colours
- Glass options – Suitable for thicker glass panes up to 25mm insulated glass units (double glazing) for thermal and acoustic applications
- Aluminium framed safety and insect security screens
- Integrated screening does not interfere with winder
- Energy efficient / High performance system options
- Compatible with other Bradnam's products

select window with a
high performance option

Choosing the right energy efficient product is made easy with Bradnam's online do-it-yourself **5 STAR WADS™** (Window and Door Selector). Go to bradnams.com.au

Solar Block™ is ideally suited to locations where keeping out heat, glare and damaging UV rays are a priority. Just like having sunglasses on your home.

Solar Comfort™ is the perfect choice for keeping comfortable temperatures all year round, despite the outside extremes. Spend less on heating and cooling your home and help the environment.

Sound Smart™ is a system that reduces external noise. By simply installing the right window and door system, you can 'turn down' the sound to far more comfortable levels.

Solar Secure™ is approximately 20 times harder to break through than ordinary glass, making it an ideal invisible and economical home security barrier.

Solar Sound n Secure™ offers comfort, safety and acoustic high performance in one window. Ideal for residential, high rise and commercial applications.
